

The Alorica Way

Equipping passionate people with powerful technology to create long-term value

At the Center of Everything We Do

For over 25 years, Alorica's been known for exceptional performance with our digitally-infused operating model—made up of the most experienced people, powerful technology, and proven processes to deliver unforgettable service for your customers. Leveraging technology and insights across our entire operating model to continuously enhance how we attract, develop and retain the very best talent in the industry.

Our customer service process—The Alorica Way—is embedded in our brand promise: Equip passionate people who know your business with powerful technology to enhance performance, and the possibilities are...limitless. We bring actionable insights, proven processes, and a laser focus to create long-term value.

Our Foundational Operating Model

Alorica's unique, multifaceted, customer service system delivers high-powered performance rooted in AI.

RECRUITING

Hiring best-fit talent to meet client needs driving increased fill and conversion rates

Instant outreach via locally-curated AI bots

Instantly engages candidates, tripling conversion rates while automating filtering, resulting in faster hiring and improved recruiter efficiency

AI-enabled talent matching

Bias-free, skill-aligned candidate selection, efficient high-volume hiring with faster onboarding, better job fits, and lowered early attrition rates

ONBOARDING AND TRAINING

Building brand experts through immersive learning achieving higher throughput, agent confidence and speed to proficiency

Quest training*

Accelerates agent readiness while ensuring comprehensive client company understanding and cultural alignment from Day One, transforming agents into confident, brand ambassadors who create seamless, localized experiences for your customers

AI roleplays*

Prepare agents and reinforce knowledge with real-life simulations across voice, chat, and digital platforms, with best practice, tone, and soft skills training and feedback

Results That Speak for Themselves

40% faster hire cycle and 585% reduction in recruiter workload with AI-driven workflows

45-63% early turnover reduction using recruiting AI

5,744 man-hours saved in applicant screenings

4% decrease in attrition in sites that utilize our predictive modeling programs like PERM

15%+ reduction in hold times due to the implementation of AVA automated real-time adherence

12% eNPS improvement after implementation of Alorica Connect milestone (feedback) surveys

EMPLOYEE EXPERIENCE

Creating a culture of success through real-time feedback, career advancement, and support delivering increased eNPS and retention rates

Coaching for Results

Delivers clear performance insights, personalized feedback, and gamified incentives via Performance Hub, a unified, AI-powered platform that drives performance and efficiency

Alorica Connect portal, with Hypercare*

Proprietary, digital, gamified website that engages new employees from Day One and beyond; Hypercare empowers the employee experience by utilizing data insights for continuous improvement

Alorica University

Global leadership development platform powers employee growth with clear visibility into career development opportunities, provides comprehensive training, and helps identify who is ready for the next level

Health & Wellness programs*

Provide the highest level of support for employee wellbeing, guided by a team of mental health professionals, including therapists, counselors, and psychologists, overseen by Alorica's Director of Global Wellbeing on a global scale

SECURITY AND COMPLIANCE

Unwavering commitment to security excellence through a foundational defense-in-depth strategy that increases business uptime

- End-to-end approach to protect programs and mitigate threats
- PCI, HITRUST, SOC I/II, GDPR, CCPA, DPA, SOX, BSA, OFAC, FCPA certified
- #1 in BPOs for BitSight Score**

OPERATIONAL EXCELLENCE

Deploying proven tools and technologies that drive performance and quality resulting in stronger occupancy, eNPS, and accuracy

Agent background noise cancellation

Creates clear, productive voice interactions with AI-powered technology, eliminating agent-generated communication barriers and delivering next-level CX

Spectrum Workforce Management (WFM) software*

Allows for real-time, automated scheduling, delivering flexibility to meet any staffing need while empowering agents to plan and manage their schedules

AVA RTA*

Facilitates cost-effective and efficient operations by automating the real-time adherence (RTA) process, increasing agent productivity, quickly identifying and addressing issues as they arise with minimal effort

Quality management

Drives consistent execution with a centralized and structured approach, including QA forms, coaching, quality reporting, advanced speech analytics, evaluations/audits, and program-level data analysis

Predictive Employee Retention Modeling (PERM)*

Prevents attrition through employee data insights, retains talent by scoring agent attributes across hundreds of data points, and applies ML to pinpoint agents most likely to leave within 30 days for proactive manager interventions

Standard reporting suite

Provides real-time and near real-time reporting to inform overall customer experience design for ongoing performance and efficiency improvements, including AHT, calls offered/handled, abandon rate, hold time, occupancy, and staffing (forecasted and available)
